

**Consumer Confidence Report
Certification Form**
(To be submitted with a copy of the CCR)

Water System Name: Fort Irwin

Water System Number: 3610705

The water system named above hereby certifies that its Consumer Confidence Report was distributed on 16 July 2018 (date) to customers (and appropriate notices of availability have been given). Further, the system certifies that the information contained in the report is correct and consistent with the compliance monitoring data previously submitted to the State Water Resources Control Board, Division of Drinking Water (DDW).

Certified by: Name: Paul Gregorio
Signature: *Paul Gregorio*
Title: Environmental Engineer
Phone Number: (760) 380 3745 Date: 19 July 2018

To summarize report delivery used and good-faith efforts taken, please complete this page by checking all items that apply and fill-in where appropriate:

- ☐ CCR was distributed by mail or other direct delivery methods (attach description of other direct delivery methods used).
- ☐ CCR was distributed using electronic delivery methods described in the Guidance for Electronic Delivery of the Consumer Confidence Report (water systems utilizing electronic delivery methods must complete the second page).
- ☒ "Good faith" efforts were used to reach non-bill paying consumers. Those efforts included the following methods:
 - ☒ Posting the CCR at the following URL:
<http://www.irwin.army.mil/Pages/Community/EnvironmentWater2.html>
 - ☐ Mailing the CCR to postal patrons within the service area (attach zip codes used)
 - ☐ Advertising the availability of the CCR in news media (attach copy of press release)
 - ☐ Publication of the CCR in a local newspaper of general circulation (attach a copy of the published notice, including name of newspaper and date published)
 - ☐ Posted the CCR in public places (attach a list of locations)
 - ☐ Delivery of multiple copies of CCR to single-billed addresses serving several persons, such as apartments, businesses, and schools
 - ☐ Delivery to community organizations (attach a list of organizations)
 - ☐ Publication of the CCR in the electronic city newsletter or electronic community newsletter or listserv (attach a copy of the article or notice)
 - ☐ Electronic announcement of CCR availability via social media outlets (attach list of social media outlets utilized)
 - ☒ Other (attach a list of other methods used)

- ☐ For systems serving at least 100,000 persons: Posted CCR on a publicly-accessible internet site at the following URL: www._____
- ☐ For privately-owned utilities: Delivered the CCR to the California Public Utilities Commission

Consumer Confidence Report Electronic Delivery Certification

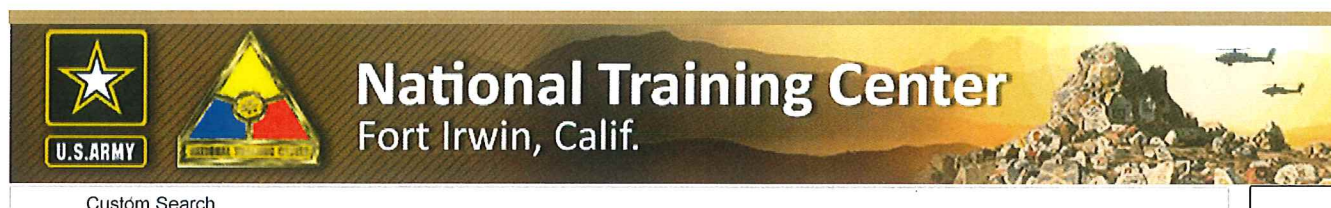

Water systems utilizing electronic distribution methods for CCR delivery must complete this page by checking all items that apply and fill-in where appropriate.

- ☒ Water system mailed a notification that the CCR is available and provides a direct URL to the CCR on a publicly available website where it can be viewed (attach a copy of the mailed CCR notification). URL: http://www.irwin.army.mil/Pages/Community/EnvironmentWater2.html
- ☒ Water system emailed a notification that the CCR is available and provides a direct URL to the CCR on a publicly available site on the Internet where it can be viewed (attach a copy of the emailed CCR notification). URL: http://www.irwin.army.mil/Pages/Community/EnvironmentWater2.html
- ☐ Water system emailed the CCR as an electronic file email attachment.
- ☐ Water system emailed the CCR text and tables inserted or embedded into the body of an email, not as an attachment (attach a copy of the emailed CCR).
- ☐ Requires prior DDW review and approval. Water system utilized other electronic delivery method that meets the direct delivery requirement.

Provide a brief description of the water system's electronic delivery procedures and include how the water system ensures delivery to customers unable to receive electronic delivery.

The Water Quality report (meeting the requirement for the CCR) was published on the Fort Irwin web site 28 June 2018. Due to Opportunity leave occurring for all residences, soldiers, and civilian workers from 22 June - 12 July. Fort Irwin delayed post master and other social media notification until 16 July. This maximized the public awareness of fort Irwin's Water Quality report.

This form is provided as a convenience and may be used to meet the certification requirement of section 64483(c), California Code of Regulations.

PUBLIC NOTICE OF THE YEAR 2017 FORT IRWIN WATER QUALITY REPORT

Fort Irwin's Water System is operated under a privatization contract with CH2MHill. As the system ownership is not transferred to CH2MHill, compliance responsibilities still reside with the U.S. Army.

Fort Irwin has recently completed the Year 2016 Water Quality Report for Fort Irwin.

CH2MHill routinely monitors (on behalf of Fort Irwin) for constituents in the drinking water according to Federal and State laws. The full results of the monitoring for the period of January 1st through December 31st 2017 are available on the web at

<http://www.irwin.army.mil/Community/Environment/Pages/WaterQualityRpt.aspx>. This website also contains previous year's reports.

It is important to Fort Irwin that our customers be informed about water quality on Fort Irwin.

MUY IMPORTANTE: Este informe contiene informacion muy importante sobre su agua beber. Traduzcalo o hable con alguien que lo entienda bien.

The Year 2017 Water Quality Report meets all requirements for the Consumer Confidence Report for 2017. The Environmental Protection Agency and the State of California Title 22 requires that this report be prepared and posted by the community water system on an annual basis to keep the public informed. Fort Irwin is required to report all the water quality results taken during 2017. Fort Irwin's report contains information on the source of the water and any contaminants that may be present in the source water.

Fort Irwin Water system has undergone extensive changes since the last report. Fort Irwin completed construction of a new water treatment plant, Irwin Water Works (IWW), last year. The plant began treating some of the water provided to our residents in May 2016. Beginning 1 July 2016, all water provided to Fort Irwin was treated at IWW and is fully potable. Fort Irwin also began to decommission the old Reverse Osmosis (RO) plant and system in September 2016. The finishing steps in this transition will be occurring during the summer of 2017.

Fort Irwin was issued a Citation, dated April 30, 2018. Fort Irwin was required to collect a minimum of 60 samples of lead and copper twice during 2017. Fort Irwin failed to collect and report the required number of lead and copper analytical results to the State Water Board for 2017. The National Training Center and Fort Irwin has complied with the Citation requirements encompassing assurance the lead and copper monitoring program is maintained in accordance with the Lead and Copper Rule CCR, Title 22, Sections 64670 through 64690.80 and notification level Tier 3. Tier 3 notification for Lead and Copper Sampling will be published in the Annual Water Quality Report due in late June of 2018 for Fort Irwin. If you have health concerns concerning the consumption of this water, you may wish to consult your doctor. Fort Irwin has conducted sampling in May 2018 and will conduct sampling in July 2018 to meet the state's sampling requirements. If you are concerned you may contact us for the most recent results at 760-380-5044.

This report's purpose is to improve public health protection by providing educational material to allow consumers to make educated decisions regarding any potential health risks pertaining to the quality, treatment, and management of their drinking water supply.

This year's Water Quality Report along with previous years reports are available on the Fort Irwin website at <http://www.irwin.army.mil/Community/Environment/Pages/WaterQualityRpt.aspx>.

For questions concerning this report or concerning the water system, please contact the Directorate of Public Works. Contact: Contact: Water Resources Manager, Directorate of Public Works, Fort Irwin. (760) 380-5044. If you have questions concerning Fort Irwin Water System operation contact CH2MHill 760-386-9706.
